

The image features a high-contrast, black and white marbled pattern, characteristic of a stone or tile surface. The pattern consists of irregular, dark, swirling shapes separated by thin, bright white veins. In the center of the image, a large, white, serif letter 'R' is prominently displayed. The 'R' is slightly tilted and stands out against the dark background of the marbling.

R

TILE

The image features a white marble background with grey veining. A solid black vertical bar is positioned on the left side. The text 'WE ARE INNOVATION' is centered horizontally and partially overlaps the black bar.

Location: Naples, Florida / Photo credits: Darren Miles.

PERFECT MATCHING

Enjoy select wood in your indoor and outdoor spaces with our matching collections. Use **RIVA Tile** in connection to **RIVA MAX** collection and create seamless spaces without worrying about external elements.

PEARL
in wood

PEARL
in tile

R

PEARL

R

Inspired by the only gem born from a living creature, **RIVA Pearl** honors both the connection to organic life as well as the cool tone and luster of its namesake: This bright and ethereal color provides a lush palette that will bring next-level elegance and peaceful vibes to any modern design.

COTTON

R

Versatility. Comfort. Texture. Natural beauty. There are many reasons why this popular spun fiber is a perfect symbolic match for **RIVA Cotton**, but the color is its own centering work of art, too: This light and breezy hue will bring style and a bit of time immemorial to whatever space it graces.

R

CRYSTAL

Inspired by the beautiful minerals that can provide us powerful new perspectives on the world around us, **RIVA Crystal** similarly channels light, texture, and character into an irreplicable expanse of diverse-yet-interconnected majesty.

R

SAND

This hue is not only a tapestry of the waves of diverse colors and designs resembling the unique patterns nature renders across her beaches but also, like those same sandy shores, calls to us on an elemental level, urging us to place our bare feet down and take a long and leisurely walk across its grounding and lovely surface.

SMOKE

Where there's **RIVA Smoke** there's fire. Fire design, that is: This intriguing and multidimensional hue is a playful yin-and-yang dance between light and dark, never going too far in either direction, but, rather, teasing out the most beautiful, elegant elements of both ends of the spectrum to create a palette that makes a statement while setting the stage for any diverse design your imagination can dream up.

EARTH

R

This hue pays homage to humanity's shared, life-sustaining home with an intricate and refined board that nonetheless retains its inherent connection to the fecund and miraculous natural world from which it sprouted.

AMBER

RIVA Amber is a timeless marvel: A hue that is recognizably classic but also exalted to a completely new and singular level of elegance, and primed to add a completely new dimension of style and substance to a myriad of designs.

R

R

RIVA \ TILE
marble

RIVA Marble will elevate your design to its highest potential. A classy white marble design accented with elegant gold veins.

Available in:
Size: 24" x 48"
1 color | Matte and polished finish

R

RIVA Tile Marble / Color: Gold

GOLD

R

This tastefully gilded white marble is a revelatory conversation piece all on its own and a dazzling foundation which cannot help but transform even a fantastic design to one that is unforgettable.

R

RIVA TILE stone

RIVA Stone collection stands out for its soothing and classical tones. The All-in-One technology ensures your smooth stone-covered areas remain slip-free as they turn coarse when in contact with water.

Available in:
Size: 24" x 48"
4 colors | All-in-One finish

R

R

SILK

Inspired by the smooth and shimmering fabric prized for more than 10,000 years, **RIVA Silk** is a fitting tribute, indeed: This bright, nuanced interplay of snowy whites and light grays reaches the pinnacle where majestic elegance and timeless beauty meet.

R

MAKO

In the wild, a glimpse of the sleek textured light gray skin of a large fish is as beguiling as it is fleeting: **RIVA Mako** captures this tone—a beauty that is both of nature and a complement to it—and creates an enduring palette to ground and illuminate your most imaginative design.

R

IVORY

Embodying the spirit of the material from which the sculptors of virtually every great ancient empire chose to fashion icons and artistry, **RIVA Ivory** place centuries of sophistication and splendor beneath your feet: This tapestry of lush light-infused grays immortalized in stone is a homage to the past that is very much geared to the future.

LUNA

R

To name a color after the Roman goddess said to be the divine embodiment of the moon is to set a quite lofty goal: **RIVA Luna** is up to the challenge, however, marrying rich lunarscape grays to full moon luminosity that will turn marveling gazes from the nighttime sky to the foundation of your design.

R

RIVA TILE cement

RIVA Cement collection provides modern minimalism to your residential and commercial projects. Highly resistant, it is a versatile solution for any indoor or outdoor space thanks to its innovative All-in-One technology that will turn the soft surface into coarse as it encounters water.

Available in:
Size: 36" x 36"
4 colors | All-in-One finish

R

OYSTER

R

More a celebration of the famed mollusk's most revered export than the shell itself, the pearl surface of **RIVA Oyster** provides a bright expanse of elegance dappled with subtle shadings that ensures the delicate allure and peace.

CASCADE

R

Named after modest but powerful waterfalls, **RIVA Cascade** create a similarly potent and dynamic effect: These flowing grays will create a basin of refinement, grace, and grandeur across which the rest of your design can tranquilly sail.

BEACON

R

Seeking a flooring option that will guide your design vision safely into homeport? **RIVA Beacon** shines a proverbial light: These rich grays draw attention, pointing the way for those creators and builders who are leaders not followers.

R

ORCA

The iconic and awe-inspiring inspiration behind **RIVA Orca** is not a whale at all, killer or otherwise, but, rather, the largest member of the dolphin family: This rich gray palette, similarly, is majestic and multilayered—the supreme version of its kind; impressive, smart, savvy, and full of unforgettable vitality.

CERTIFICATIONS

SGS. Our products have been evaluated and verified according to the requirements of ISO 14021:2016 Environmental Labels and Declarations.

All-in-One. Anti-slip softness in your indoor and outdoor spaces.

DCOF 0.70

DCOF 0.70. The dynamic coefficient of friction identifies suitable applications for a floor product. When it comes to tile, DCOF is a main consideration, especially for areas that may be exposed to water, oil, or grease. ANSI A137.1 requires tile flooring products to have a DCOF of 0.42 or greater.

WE ARE DESIGN. WE ARE INNOVATION.
